

Rob Burchard, Tim Gortman, and Aviation Risk Consultants, have been our insurance brokers for over 9 years now. They handle all of our airport insurance needs including airport liability, hangarkeepers, medical malpractice for our EMTs, professional liability, commercial crime, public officials liability (errors & omissions), building and personal property, environmental mitigation & storage tanks, autos, inland marine, and workers compensation policies.

Rob & Tim take great care to make certain that we have the coverages that we need. With their relentless motivation and perseverance and their exceptional knowledge of the insurance marketplace, they bring a wealth of knowledge and skills to our organization. Best yet, they are more than an advisor ... they are our advocate and work tirelessly on our behalf. Rob and his staff are our "go-to" people for any, and all, things related to insurance including carriers, policy limits, claims, as well as general questions/queries related to insurance clauses in contracts with vendors, tenants, and others.

I have no hesitation whatsoever in highly recommending Rob & Tim and Aviation Risk Consultants, without reservation, to other airports, airport tenants, other aviation organizations, and, indeed, anyone else looking for a relationship with a true insurance professional.
